

Analysis

1. Protection; rights, life, preparation, security, defense
2. Protection To achieve Potential

CC is about responding

Psych- dissonance (belief) limitations: Heuristics, memory)

- Self preservation turns to culture preservation; preserving the dream of all artists, inventors, etc for all mankind, otherwise it was all a waste, they're dead, their record will only survive if we do

Bio- native species reduction, disaster and collapse preparation, economic and environmental sustainability

Socio - importance of individualism in maintaining beliefs, morale

Political/spirit- lack of following declarations/commitments,

3 recent articles: coke and pepsi plastic bottles, nike and apple slave labor and

Biological

- Native Species Reduction (increasing reliance on state (indigenous lifestyle))
- Disaster and collapse preparation
- Conscious of Reliance (enslavement (until completely self-sufficient)) on the environment
 - o Degradation

Psychological

- Cognitive Dissonance
 - o Belief Disconfirmation
 - o Effort (self) Justification
- Information Theory
 - o Heuristics
 - Trust must be a heuristic (limited comprehension means limited awareness)
 - o Memory
 - 7 +/- 2
 - o Bits/Neuroscience of Freewill and User Illusion
 - User illusion source of narcissistic and damaging superiority complex

Sociological

- Situational Affect
 - o De-individualization
 - Moral Disengagement
- Root of all evil
 - o Inequality (or Jesus "money")
 - o Less than Human
 - o Suffering is necessary

Spiritual/Governmental/Political/

- Lack of Follow-through (rights)
- Corruption
- Purpose (to mitigate)
- Financial Feasibility
- Designs

- Expanding Concept of Self (Self Transcendence)
- Statue of responsibility (*Man's search for meaning*)
 - Affirming
 - Absolving Guilt and Fear – Slavery and Vulnerability – By establishing self-resilient/sustaining/autonomous communities
- National Mitigation Framework**

1. Become Aware/Recognize Limitations
2. Declare/ Respond to Threats
3. Prepare/ Affirm Life's Meaning
